"Pakistan Northern Areas tourist map is created with more than 20 high resolution satellite images. The map is shared with three international boundaries including China, India and Afghanistan and is connected to two different provinces (Kashmir, Kyber Pakhtunkhwa) and the up north (Gilgit Baltistan) of Pakistan. Northern Pakistan Map will guide many domestic and international tourists offline. This Tourist map of Pakistan shows all northern road maps including CPEC sites, tourist attraction spots, beautiful valleys, rivers, waterfalls etc. Distance and Duration are mentioned which can vary and depends on traffic and peak days. This map will be available in printed form very soon. For further information you can email at assamartist59@gmail.com | info@pakistanatlas.com
