Gilgit Baltistan always has a place in my heart because I have started my life's first journey from Astore Valley in Gilgit Baltistan in 2011. This place made me fall in love with travelling . Gilgit Baltistan is full of hospitality, nature and rich culture. At that time, I did not think that I would make a map of this place after 10 years. G.B map is a bit different from my other guide maps. It's more detailed and more realistic so people can easily get the guidance from this tourist guide map as we have communication, signal and internet issues in our northern areas of Pakistan. I hope this map is going to help many domestic and international tourists/travellers. Hardcopy of map will be available soon. Drop your message at assamartist59@gmail.com.
